

EHF

1993 – 1997

In the inaugural year of the Men's EHF Champion League the classic home and away matches were replaced with a totally new system: 32 teams went into two qualification rounds. The remaining 8 teams were placed into 2 groups, and the winners TEKA Santander und ABC Braga faced each other in the final. Santander narrowly kept the upper hand and started an eight-year Spanish Club winning streak. > Irun > FC Barcelona (4 times / 3 times against Zagreb)

EHF makes history

What a game

Outburst of...

Amazing goals

I did not mind losing that game,
for, in my heart, I had already won!

The proudest of my moments
Were spent on courts for handball
The best time of my childhood
Nothing compares to it at all!

EHF is a way of life!

We are on a journey, it started 25 years ago

1998 The sports of handball also experienced impressive growth. More and more people start to go in to watch games. And the EHF took the game to the next level – with the unified concept for court services used for the first time in Baltsama (? Habe ich nicht richtig verstanden). The courts were looking cool. Even superstars were joining in the hype.
